

## **Friday Forum on** ***Cars and Congestion - Defining the Alternatives***

**Friday, 3 August, 9am – 11am**

MWH Ltd, Level 2, Building C, Millennium Centre  
600 Great South Road, Greenlane

### **Speakers:**

Tricia Allan, ARTA: *Go Neutral - Planning for Safe & Effective Walking & Cycling*

Poul Tvermoes, MWH: *Town Planning & Urban Design as if Public Transport Matter'*

**This is the fifth forum hosted by the NZSSES and is applicable to everyone as we all deal with levels of sustainability issues either professionally or in our every day activities.**

### **NZSSES**

The New Zealand Society for Sustainability Engineering and Science is a learned society focused on achieving sustainability by identifying, understanding and accepting the responsibility for engineers and scientists to manage resources and ecosystems for both current and future generations.

The NZSSES is a Technical Interest Group of the Institution of Professional Engineers of New Zealand and a Constituent Organisation of the Royal Society of New Zealand.

### **Sustainability Forums**

The NZSSES are planning to hold regular forums, aimed at exploring different engineering and science sectors, and their approach to sustainability. It is hoped that problems with understanding and implementing sustainability principles will be identified and discussed, from which the NZSSES will aim to facilitate research projects to further explore the issues and provide feedback to its members.

### **Topics so far:**

- Local Government and Sustainability (June, 2005)
- Industry and Sustainability (September 2005)
- Consultants and Sustainability (May 2006)
- Governance and Sustainability (September 2006)
- Talking and Walking Sustainability Conference (February 2007)

The forums are run from 9:00 to 11:00am and comprise brief presentations from two guest speakers followed by a facilitated discussion afterwards. A summary and way forward is given at the end to help develop practical ways of improving the uptake of sustainability principles.

## Forum No 5: Sustainable Transport

### Details

<b>Date:</b>	Friday, 3 August, 9am – 11am
<b>Location:</b>	MWH, 600 Great South Road, Penrose
<b>Forum Objectives:</b>	

### Programme

<b>9am</b>	<b>Welcome</b>	<b>Facilitator</b>
<b>9:05am</b>	<b>Presentations</b> <i>Go Neutral - Planning for Safe &amp; Effective Walking &amp; Cycling</i>	Tricia Allan, ARTA
<b>9.40am</b>	<i>Question time</i>	
<b>10 am</b>	<i>Town Planning &amp; Urban Design as if Public Transport Matters</i>	Poul Tvermoes, MWH
<b>10.40am</b>	<i>Question time</i>	
<b>10:55 am</b>	<b>Summary and way forward</b>	<b>Facilitator</b>
<b>11am</b>	<b>Finish</b>	

### Registration / Information

<b>Fee</b>	<ul style="list-style-type: none"> <li>○ Free for members of NZSSES</li> <li>○ \$30 non members</li> </ul>
